

12/20/2019 Email:

Hello,

You are receiving this email from the Pennsylvania Department of Environmental Protection (DEP) because you have previously expressed interest in the Ridge Run PFAS HSCA Site located in East and West Rockhill Townships, Bucks County.

UPDATES:

- DEP installed filtration systems at 8 residential properties.
- During the week of January 6th, DEP plans to sample the newly installed filtration system to ensure that they are removing the PFOS and PFOA below the HAL.
- In mid-December, DEP received permission to install the filtration system on an additional residential property, and is moving forward in having a filtration system installed at that location.
- It is not too late for homeowners, with combined PFOS and PFOA concentrations above 70 ppt that have not already done so, to indicate their willingness to allow DEP to install a filtration system. Please indicate your interest by responding to this e-mail or contacting me directly. Please note, we will need a signed Consent for Access and Right of Entry form so that the work can be performed.

DEP continues to update its project website for the case: <http://dep.pa.gov/ridgerun>

If you receive this message from a friend and would like to be added to the list, please contact RA-EP-SEROECB@pa.gov to be added with heading “Ridge Run Updates” in the subject of your e-mail.

Thank you for your continued interest in DEP’s work at the Ridge Run PFAS HSCA Site.

Sincerely,

Colin R. Wade | Environmental Protection Specialist
Environmental Cleanup and Brownfields
Department of Environmental Protection
