

DEP Information Meeting January 8, 2021

The Pennsylvania Department of Environmental Protection (DEP) held an information meeting to update local elected and appointed officials to provide the status of the Rock Hill Quarry located on North Rockhill Road since the last meeting which convened December 4, 2020.

The Rock Hill Quarry is still under a DEP cease order.

Hanson Aggregates will be responding to DEP's November 18, 2020 Technical Deficiency letter by the January 15, 2021 deadline on what is currently to take place at the site. DEP will then make a determination taking all documentation and information received into consideration. Items currently under review by DEP may not be responded to until it is known what is to take place at the site. It is DEP's intention to have a decision issued in 2021.

DEP continues to assess Hanson Aggregates' revegetation. It is anticipated touch up will be needed Spring 2021.

DEP's Rock Hill Quarry website page has been updated with all documents posted with the current status. All documents received continue to be posted.

DEP is internally reviewing a draft stream evaluation report for the UNT to Tohickon tributary (Bog Run), but at this time DEP has no date for a public comment period on the report.
