ADVISORY TO APPLICANT:

Applicant is advised that upon review of a completed application, it may be determined that additional approvals are required prior to final issuance of a Zoning Permit. Those additional approvals may include but are not necessarily limited to:

PennDOT Applications that affect the use of a property that take access from a road under PennDOT jurisdiction may require a PennDOT permit.

PaUCC If the proposal includes construction regulated by the PA Uniform Construction Code, a Building Permit Application is required.

BCCD If the proposed work area involves disturbance of more than 5000 square feet of soil then approval from the Bucks County Conservation District is required. www.bucksccd.org/index.htm

Stormwater If the proposal involves the construction of cumulative area of 1,000 square feet or more of impervious surfaces since the year 2002, a stormwater management plan or review may be required. Impervious surfaces include but are not necessarily limited to: driveway (both asphalt and crushed stone), buildings, some decks, patios, walkways, etc.

Waste Water Certain projects may necessitate the review and approval of the Bucks County Health Department or public water / sewer provider.

Driveway Permit If the proposal involves work within a township right-of-way a Driveway or Road Opening Permit may be required.

Land Development Certain uses may require the submission of a Land Development Application to the Planning Commission and Board of Supervisors.

Other Certain uses may require submission to the Planning Commission, Zoning Hearing Board or other Boards, Commissions or Agencies.

DEFINITIONS:

Alteration – as applied to a building or structure, a change or re-arrangement in the structural parts or an enlargement or diminution.

Building Height – The vertical distance from the average elevation of the finished grade at the front two corners of the building to the top of the highest roof beams on a flat or shed roof, to the deck level on a mansard roof, and the average distance between the eaves and the ridge level for gable, hip, and gambrel roofs.

Easement – A grant of the use of a parcel of land for the use by the public, a corporation or a person for a specified purpose.

Impervious Surface – Impervious surfaces are those surfaces which do not absorb rain. All buildings, parking areas, driveways, roads, sidewalks and any areas in concrete asphalt and packed stone shall be considered impervious surfaces within this definition. In addition, other areas determined by the Township Engineer to be impervious within the meaning of this definition will also be classified as impervious surfaces.

Impervious Surface Ratio – The impervious surface ratio is measured by dividing the total area of all impervious surfaces within the site by the net buildable site area.

Lot line – any boundary line of a lot.
